e-STUDIO™2040c/2540c/3040c
Color from Toshiba is more versatile than ever.

The e-STUDIO2040c/2540c/3040c from Toshiba bring mid-volume workgroups impressive color and high-volume black and white, including copy, print, scan and fax capabilities. Now, thanks to the integration of the new generation e-BRIDGE platform, features can be added later—similar to the way apps are added to smart phones. This platform also provides increased security, connectivity, manageability and energy saving. Yet another technological advancement from Toshiba.

This changes everything
Since today’s MFPs are also used as IT devices, the new e-BRIDGE controller provides seamless compatibility with networks and management systems. Administrators can quickly and easily perform initial settings as well various management tasks such as those involving users throughout the system, targeted security, and multiple devices. They can also perform tasks that previously required a service technician like installing multiple systems, upgrading software using patches, cloning, and changing settings. e-BRIDGE allows for seamless integration with core business applications to streamline workflows. It allows you to keep up with changing technology, too. As new applications for advanced features and functions are developed, they can simply be added on.

Performance you’ve come to expect
The e-STUDIO2040c/2540c/3040c offer high-speed color and black and white at speeds up to 30 pages per minute. Image quality meets Toshiba’s standard of excellence, above and beyond the typical industry standard. Add to that robust paper handling, Gigabit connectivity, network scanning and printing, an optional dual-line, high-volume Super Group 3 fax, and the ability to perform a multitude of tasks without interruption. Not to mention advanced security features, increased energy efficiency, and enhanced connectivity.
New e-BRIDGE Platform
Capacity For New Apps
Increased Security
Greater Connectivity
Easier Fleet Management
Exceptionally Crisp Output
Improved Energy Efficiency
Multiple functions, innumerable benefits.

Never before have we been able to offer so much in an MFP series. What was once out of the realm of possibility for busy general offices is now readily available. The new e-STUDIO2040c/2540c/3040c make business color more versatile than ever. New features and benefits are not only impressive but also unprecedented.
Improved connectivity and compatibility
An administrator can easily connect with multiple networks and their management systems.

Universal Printer Driver
You can print on any current e-STUDIO series model without adding another driver and settings are easily applied to multiple PCs.

Cluster printing
An optional e-BRIDGE Job Point commands the distribution of print jobs of up to ten e-STUDIO models linked by a network.

Increased capacity
Two 550-sheet universal cassettes come standard, and two 550-sheet cassettes can be added as well as a 2,500-sheet tandem feeder. Using a 100-sheet bypass, the total capacity is 3,700 sheets from 4 different paper sources.

Banner printing
You can print impressive full color banners, posters and signs up to 12” by 47”.

12” x 47” Banner Printing
Job Skip/Print Standby
Universal Print Driver
Standard Tandem Printing
Cluster Printing

Finishing options
Finisher options include a 50-sheet multi-position stapling finisher or saddle-stitched finisher for booklets up to 60 pages as well as a hanging finisher that staples 50 sheets and holds up to 1000 pages.

Network scanning
Capture one or two sided originals at speeds up to 57 images per minute for monochrome or color, while the scanner detects the size of the original, determines whether it’s in color or black and white, the Automatic Paper Selection chooses the proper paper size for output.

EFI Fiery Controller
An optional Fiery server includes innovative new features like EFI ColorWise, EFI WebTools and LDAP support as well as tight integration with several new proprietary Toshiba technologies.

Cloud connections
With cloud connection capability, you can scan-to and access documents stored in popular cloud based collaboration services such as Google Docs. Using Toshiba’s Advanced Scanning technology, documents can be scanned and stored in modifiable formats such as Microsoft Word and Excel for the utmost in mobile user productivity.

Plug-in features
PDF/A features, customized features and the like can be added quickly by simply plugging them in.

Easily Replaceable Units
Restore operation quickly with easily replaceable maintenance units.

Job Skip
A job in standby mode can begin printing ahead of a job that has been halted because a certain paper size has run out.
Industry leaders, managed print experts.

In addition to improved functionality, connectivity, and solutions readiness, the new e-STUDIO2040c/2540c/3040c also allow for increased security, energy savings, and manageability. While our previous MFPs were excellent in those categories, at Toshiba, we don’t simply settle for excellence.

More secure than ever
A higher level of security is achieved in several ways, including more administrator control with simple operation of advanced features. A Hard Disk AES Encryption feature and Data Overwrite come standard, and permit a security mode which complies with IEEE 2600.1—the highest security level of its kind. In fact, data remains secure even if the hard drive is stolen. Other top security features include a secure PDF encryption feature with up to 128-bit AES, IP/MAC address filtering, Role Based Access Control, an SNMPv3 protocol for enhanced security administration, and an optional IPSec protocol.

Doing more for our planet
Toshiba has always worked hard to keep environmental impact to a minimum, developing many of the world’s leading technologies to conserve energy and protect the environment. The e-STUDIO2040c/2540c/3040c are proof of that. A dramatic reduction in power consumption during the sleep mode—down to 5W—has been achieved, as well as an overall reduction of power by as much as 40%. The new design incorporates 30% recycled plastics, which is part of the reason there has been an impressive reduction in carbon dioxide. This new line of MFPs also qualifies for Energy Star Tier 2 compliance.

Your Managed Print Experts
The e-STUDIO2040c/2540c/3040c puts far more control in your hands. If you’d like to optimize your entire fleet of MFPs, copiers and printers, turn to our Managed Print Experts. We can help you find ways to control costs and save up to 40% on your document output expenses. Learn how to print smarter using rules-based network printing that allows you to set printing parameters such as size, volume and color restrictions. We’ll also analyze your entire document fleet to find points of vulnerability and develop the best security plan for your business. In short, you can save money and the environment while working smarter and more securely, thanks to Toshiba’s Managed Print Experts.
